

Why foster with Josiah white's?

FAITH LIVING MINISTRY

To us, this is ministry. Krish Kandiah, Founder of Home for Good, said, "Foster parents have the opportunity to demonstrate a lived parable of the gospel before a watching world." We have adopted Mark 9:37 as our foundational verse. We are obedient to the call of caring for the vulnerable, because we have been so cared for by our Creator and Savior.

INDUSTRY LEADING TRAINING

Because your family and the children you serve deserve the very best, we invest extra resources in preparing you for this ministry. Josiah White's is a member of the Teaching Family Association, and we train our foster parents and staff in this research-informed, trauma-sensitive model of child skill building and foster family support. Whether we have a child for one week or a lifetime, we owe it to them to focus on building the skills needed for a successful future.

MEANINGFUL SUPPORT

Accessibility - We have staff on call at all times to provide support to foster families day and night. You will always be able to reach someone in a time of challenge.

Advocacy - With Josiah White's, our team will be a liaison for you with other providers and the Department of Child Services and will advocate for the needs of your family and children placed with you.

Efficiency - Being a foster parent isn't easy. Our licensing process is purposeful and predictable with a schedule of training and home visits. We have adopted technology such as the Foster Family Portal as a fast, easy, and secure way for our foster parents to submit and receive documentation and resources.

Prayer - As a Christ-centered ministry, we know the power of prayer. We cannot always change an immediate circumstance, but we can always join forces in prayer.
